

Queen[®] Regent Asters[™]

At Queen[®] we are setting new quality standards in Aster breeding focusing on the following selection criteria:

- Well documented improved longevity and ornamental value.
- Well documented high level of ethylene resistance.
- Cultivation without using chemical growth regulation, leading to improved keeping quality.
- Naturally enhanced plant volume, fewer cuttings needed per pot.
- Optimal plant quality throughout the season, including early spring and late autumn, as well as production in warm climates or harsh winter conditions.
- Large lush composite flowers, in vibrant long-lasting colors.
